

Frequently Asked Questions

Q1. I cannot access BethanysAce.ca. What should I do?

Per AGCO regulations – you must be located within the province of Ontario at the time of your ticket purchase. Your device's location services must be turned on to verify your location prior to entry to the online Catch the Ace sales platform. Users must also agree to all Terms and Conditions outlined.

Q2. Why does BethanysAce.ca require my location?

Why am I receiving the following prompt: "<https://BethanysAce.ca>" would like to use your current location?"

Per AGCO regulations – you must be located within the province of Ontario at the time of your ticket purchase. Your current location will confirm your eligibility.

Q3. What if I already selected "Don't Allow"?

Reloading the page should cause you to be prompted to share your location again. If you have specified that you never want to share your location, you will need to go into your settings to allow. See Enable Device Location Services Section.

Q4. What if I receive one of the following prompts?

- a. ***"You must allow your browser to share your location to purchase tickets. Please enable location services for this browser and try again."***
- b. ***"Location information is unavailable. In order to purchase tickets your location must be able to be determined. Please enable location services for this browser and try again."***
- c. ***"The request to get user location timed out. In order to purchase tickets your location must be able to be determined. Please enable location services for this browser and try again."***
- d. ***"An unknown error occurred while attempting to determine your location... In order to purchase tickets your location must be able to be determined. Please enable location services for this browser and try again."*** These prompts are related to your Location setting. You may have told your browser to never share your location. You have to change that setting before continuing with your ticket order. See Enable Device Location Services Section.

Enable Device Location Services

Select from the devices below, to enable your access to the E-Commerce site - iOS Mobile Device, MacOS Desktop, Windows, Android Smartphone. Instructions for each are provided below.

iOS Mobile devices

1. Go to the Settings App
2. Go to “**Privacy**”
3. Go into “**Location Services**”
4. Ensure “**Location Services**” are on
5. Scroll down and click “**Safari Websites**”
6. Make sure that Allow Location Access is set to “**While Using the App**”

Chrome has the same setting if you are using that instead.

MacOS Desktop

Check if Location Services is turned on

1. Open “**System Preferences**”
2. Select “**Security & Privacy**”
3. Select “**Privacy**” tab
4. Ensure “**Location Services**” is checked
5. If it is not checked click the lock icon in bottom right corner of that window to make changes
6. Enter in your Username and password
7. Check The “**Enable Location Services**” checkbox
8. If it is checked look at the list of allowed applications and make sure the web browser, you are using is also checked. Note that Chrome will not show up here, but Safari and Firefox will
